

Juyan Criston Runatay

Front-End Developer passionate about building engaging and responsive web applications. Eager to contribute to innovative projects and enhance user experiences through clean and dynamic interfaces

Relevant Experience

Junior Developer Intern • Charitag Mar 2023 – Jun 2023

- Create the visual and interactive parts of websites using HTML, CSS, Bootstrap and JavaScript to ensure they look great and function smoothly.
- Partnered with designers to transform concepts into dynamic web features.
- Conducted thorough debugging and optimization, enhancing website performance and compatibility across various platforms and browsers.

Freelance Project Sept 2024

- Create a project for a friend where he can put all the available schedule regardless the position that could be pick up depending on the position you have (that fits on your role).
- With the project I completed, He can now search easily and pick up shifts by only searching based on his position.

Selected Projects

Web Content Management System

Bootstrap Sql Php Html Css Javascript

Application that enables users to create, manage, organize, and publish digital content on websites without requiring advanced technical skills. It simplifies the process of creating and maintaining websites, allowing users to focus on the content itself rather than the underlying technical complexities.

ShopStyle

React Sass/Scss Api Firebase

Application that enables users to create, manage, organize, and publish digital content on websites without requiring advanced technical skills. It simplifies the process of creating and maintaining websites, allowing users to focus on the content itself rather than the underlying technical complexities.
