## EXPERIENCE

MAR, 2023 - JUN, 2023

**Intern, Charitag Inc., 518A, Leroyer Street, Saint-Lambert QC J4R 1M6, Ca**

- I create the visual and interactive parts of websites using HTML, CSS, and JavaScript to make them look great and work smoothly.
- I team up with designers to bring their ideas to life by turning them into working features on websites.
- I find and fix issues to make sure websites look good and work well on different devices, like computers and phones.
- I'm always learning and trying to get better at web development, picking up new skills while working alongside the team.

## EDUCATION

AUG, 2021 - JUN, 2023

**Programmer Analyst, Herzing College, 1616 René-Lévesque Blvd W, Montreal, Quebec H3H 1P**

## SELECTED PROJECTS

### Web Content Management System

BOOTSTRAP SQL PHP HTML CSS JAVASCRIPT

Application that enables users to create, manage, organize, and publish digital content on websites without requiring advanced technical skills. It simplifies the process of creating and maintaining websites, allowing users to focus on the content itself rather than the underlying technical complexities.

### TheWatchMovies

REACT TAILWINDCSS API FIREBASE

An application where users can watch and search for their favorite movies. Movies in different genres will be shown to help user explore movies. Information such as cast, ratings, movie summary etc. are also present in the app.

### Where in the world ?

HTML JAVASCRIPT TAILWINDCSS API

Where in the world is an app where you can search for a country and information such as name of the country, population, region and other information will be displayed.
