JUL 2024 - PRESENT

Certificate,Complete React Developer in 2024 (w/ Redux, Hooks, GraphQL), Zero To Mastery Academy

SELECTED PROJECTS

Web Content Management System

BOOTSTRAP SQL PHP HTML CSS JAVASCRIPT

Application that enables users to create, manage, organize, and publish digital content on websites without requiring advanced technical skills. It simplifies the process of creating and maintaining websites, allowing users to focus on the content itself rather than the underlying technical complexities.

ShopStyle

REACT SASS/SCSS API FIREBASE

Developed a fully functional e-commerce website using React and SCSS. The project features a user-friendly interface where users can browse products, log in to their accounts, and securely check out items. Integrated a third-party API to dynamically fetch product data and manage inventory. The site is responsive and optimized for a seamless shopping experience across various devices.
